

HEALTH SCIENCES AND HUMAN SERVICES LIBRARY (HS/HSL)

Annual Report 2018/2019

As the Library continues to evolve, big changes came to the first floor's main reading room this year. Starting with a survey to gauge students' preferences, the area was outfitted with new, tech-friendly furniture, optimized for both collaborative and individual study:

- 123 seats with 137 power outlets incorporated into the furniture
- 70 Rolling chairs
- Tall café tables
- Single and double study pods
- Group study tables in a range of sizes
- Banquettes, encouraging casual, relaxed group study
- Tall, 6-person tables with power and USB ports
- Pops of color on newly painted walls, column signs, and beautiful artwork brighten the area

Students Praise the New Furniture

"Great job! Thanks for actually listening to students' concerns!"

"Love the variety of options."

"Nice, comfortable, gives a little privacy."

This year the HS/HSL building celebrated its 21st birthday with two special exhibits. The Historical Collection's 21@601 exhibit showcased the design, construction, and opening of the library's home at 601 West Lombard St. The Library's Art@601 exhibit featured pieces from the 74 exhibits the Weise Gallery has hosted over the years.

OUTBREAK

Epidemics in a Connected World

In Fall of 2018, the Wise Gallery hosted *Outbreak: Epidemics in a Connected World*, an exhibit created by the Smithsonian's National Museum of Natural History. The HS/HSL created a complementary exhibit, the 1918 Flu Pandemic and Baltimore: 100 Years Later. The 1918 exhibit showcased materials from historical collections across campus with loans from the School of Pharmacy, School of Nursing, and the National Museum of Dentistry.

The exhibits were supported by three events: an opening reception, a flu clinic, and a lunch and lecture. They received attention from the local press: interviews on Baltimore's WYPR and WBAL. In partnership with the School of Pharmacy the flu clinic inoculated nearly 300 people.

\$1,993,479 in funding received to support National Library of Medicine (NLM) outreach efforts.

NLM Outreach Sessions Served
24,079 People

HS/HSL developed the first **Scholarly Publishing Workshop Series**, a weeklong series including topics such as choosing the right journal for your research, author IDs, enhancing your research impact, open access, and predatory publishing.

58 Scholarly Contributions

Presentations, Journal Articles, Book Chapters, and more by Library Faculty and Staff

The HS/HSL's Bioinformationist, in partnership with a SON researcher, created a prototype data dashboard. The aim of the dashboard is to assist providers and improve the quality of patient care.

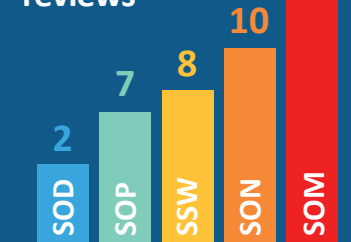

MJ Tooley, MLS, AHIP, FMLS, Associate Vice President for Academic Affairs and Executive Director of the Health Sciences and Human Services Library, received the Marcia C. Noyes award, the Medical Library Association's highest honor.

Quiet Rising I - Yumi Hogan

Nature's Spring Sonata

The Artwork of Maryland's First Lady, Yumi Hogan

In the Spring, the Wise Gallery showcased the work of Yumi Hogan, Maryland's First Lady. The exhibit's opening brought visitors from across the UMB campus as well as Maryland delegates to view the work inspired by Mrs. Hogan's life and interactions with nature.
